

THE : FUTURE : LABORATORY

: : VACANCY

: : QUANT ANALYST

Starting salary: £25,000

Immediate start

The Future Laboratory is recognised internationally for its innovative approach to trend forecasting, consumer insight and brand strategy. Via our global network and in-house team of trend analysts and ethnographic researchers, we offer clients in a wide range of sectors (retail, technology, finance, automotive, food, fashion, creative industries) qualitative and quantitative insights into future consumers and how to target them. We are now seeking a talented, experienced Quant Analyst to join our team.

Key responsibilities:

- : Construct quantitative surveys to set client briefs.
- : Analyse quantitative survey findings, interpret the data.
- : Translate the data it into meaningful insight conveyed via editorial statements.
- : Manage all quantitative survey data.

Essential skills and experience:

- : To think about quantitative research in a qualitative way.
- : Experienced in global quant research, analysis and implementation.
- : Highly analytical and astute method for surveying consumer and B2B attitudes and behaviours.
- : The ability to read and put quantitative data in the context of social, cultural and economic trends.
- : Highly tuned writing and editing skills.
- : The journalistic ability to identify and convey a story, demonstrating the capability to articulate new and emerging ideas across a range of subjects in a way that is intelligible, authoritative, articulate and focused.
- : A comprehensive and live database of contacts in core areas relevant to The Future Laboratory.
- : Evidence of managing work load and meeting deadlines.
- : Ability to communicate at all levels, feeding relevant stats into research team / editor, as appropriate.
- : Work under the guidance of insight directors and alongside our trends analysts and researchers to ensure that all briefs and client project work are answered in an articulate, comprehensive and insightful manner.
